

The graph illustrates the growth of the number of nodes in a network over 342 iterations. The x-axis represents the iteration number, ranging from 1 to 342. The y-axis represents the number of nodes, on a logarithmic scale from 1.00 to 100,000,000,000.00. The curve shows a steady increase in the number of nodes, with a particularly sharp rise starting around iteration 100, reaching over 100 billion nodes by iteration 342.
